

Figure 2: GAME NO. 2620 - 4.0

| <b>Prize Amount</b> | <b>Approximate Number of Winners*</b> | <b>Approximate Odds are 1 in **</b> |
|---------------------|---------------------------------------|-------------------------------------|
| \$10.00             | 1,452,000                             | 9.09                                |
| \$20.00             | 924,000                               | 14.29                               |
| \$30.00             | 462,000                               | 28.57                               |
| \$50.00             | 462,000                               | 28.57                               |
| \$100               | 132,000                               | 100.00                              |
| \$200               | 17,050                                | 774.19                              |
| \$500               | 1,100                                 | 12,000.00                           |
| \$1,000             | 208                                   | 63,461.54                           |
| \$10,000            | 11                                    | 1,200,000.00                        |
| \$500,000           | 4                                     | 3,300,000.00                        |

\*The number of prizes in a game is approximate based on the number of tickets ordered. The number of actual prizes available in a game may vary based on number of tickets manufactured, testing, distribution, sales and number of prizes claimed.

\*\*The overall odds of winning a prize are 1 in 3.83. The individual odds of winning for a particular prize level may vary based on sales, distribution, testing, and number of prizes claimed.
