Request for Proposals Flooded Roads Information System Project

The North Central Texas Council of Governments (NCTCOG) is requesting written proposals from consultant firms for the creation of an advanced warning system for transportation facilities to identify potential flooding risk areas and alert the public about potentially dangerous conditions and closed roads. The Dallas-Fort Worth region's transportation system is vulnerable to extreme flooding events with minimal communication to the public on roadway status. This project would create a preemptive warning system to inform the public in advance

of any potential flooding of the transportation system. The study will assess existing and historical data collection, model the data to predict roadway flooding, and disseminate the results. The anticipated result will be a software to predict where flooding events of the transportation system would occur and a method to warn the public of the anticipated flooded areas.

Proposals must be received in-hand no later than **5:00 p.m., Central Time, on Friday, February 28, 2025**, to Nathan Drozd, Principal Transportation Planner, North Central Texas Council of Governments, 616 Six Flags Drive, Arlington, Texas 76011 and electronic submissions to TransRFPs@nctcog.org. The Request for Proposals will be available at www.nctcog.org/rfp by the close of business on **Friday, January 31, 2025**.

NCTCOG encourages participation by disadvantaged business enterprises and does not discriminate on the basis of age, race, color, religion, sex, national origin, or disability.
