### Notice of a Public Meeting and a Proposed Renewal with Amendment of General Permit WQG100000 Authorizing the Disposal of Wastewater

The Texas Commission on Environmental Quality (TCEQ or commission) is proposing to renew and amend State Only General Permit No. WQG100000. This general permit authorizes wastewater generated by industrial or water treatment facilities to be disposed of by evaporation from surface impoundments adjacent to water in the state. This general permit does not authorize the discharge of wastewater into water in the state. The draft general permit applies to the entire state of Texas. General permits are authorized by Texas Water Code, §26.040.

**DRAFT GENERAL PERMIT.** The executive director has prepared a draft general permit renewal with amendments of an existing general permit that authorizes wastewater generated by industrial or water treatment facilities to be disposed of by evaporation from surface impoundments adjacent to water in the state. This general permit does not authorize the discharge of wastewater into water in the state. No significant degradation of high quality waters is expected and existing uses will be maintained and protected. The executive director proposes to require regulated entities to submit a Notice of Intent to obtain authorization under the general permit.

The executive director has reviewed this action for consistency with the goals and policies of the Texas Coastal Management Program (CMP) according to General Land Office regulations and has determined that the action is consistent with applicable CMP goals and policies.

#### Update to the Water Quality Management Plan (WQMP)

The Texas Commission on Environmental Quality (TCEQ or commission) requests comments from the public on the draft January 2025 Update to the WQMP for the State of Texas.

Download the draft January 2025 WQMP Update at [https://www.tceq.texas.gov/permitting/wqmp/WQmanagement\\_up-](https://www.tceq.texas.gov/permitting/wqmp/WQmanagement_up-)

The WQMP is developed and promulgated in accordance with the requirements of the federal Clean Water Act, Section 208. The draft update includes projected effluent limits of specific domestic dischargers, which may be useful for planning in future permit actions. The draft update may also contain service area populations for listed wastewater treatment facilities, designated management agency information, and total maximum daily load (TMDL) revisions.

Once the commission certifies a WQMP update, it is submitted to the United States Environmental Protection Agency (EPA) for approval. For some Texas Pollutant Discharge Elimination System (TPDES) permits, the EPA's approval of a corresponding WQMP update is a necessary precondition to TPDES permit issuance by the commission.
