The Texas Commission on Environmental Quality (TCEQ or commission) is extending the comment period due to a publication error by TCEQ for the proposal to amend and renew Texas Pollutant Discharge Elimination System General Permit No. TXG640000. This general permit authorizes the discharge of wastewater generated as a result of conventional water treatment at water treatment facilities into or adjacent to water in the state. The draft general permit applies to the entire state of Texas. General permits are authorized by Texas Water Code, §26.040.

DRAFT GENERAL PERMIT. The executive director has prepared a draft general permit renewal with amendments of an existing general permit that authorizes the discharge of wastewater generated as a result of conventional water treatment at water treatment facilities into or adjacent to water in the state. No significant degradation of high-quality waters is expected and existing uses will be maintained and protected. The executive director proposes to require regulated entities to submit a Notice of Intent to obtain authorization under the general permit.

The executive director has reviewed this action for consistency with the goals and policies of the Texas Coastal Management Program (CMP) according to General Land Office regulations and has determined that the action is consistent with applicable CMP goals and policies.

On the date that this notice is published, a copy of the draft general permit and fact sheet will be available for a minimum of 30 days for viewing and copying at the TCEQ Office of the Chief Clerk located at the TCEQ Austin office, at 12100 Park 35 Circle, Building F. These documents will also be available at the TCEQ's 16 regional offices and on the TCEQ website at <https://www.tceq.texas.gov/permitting/wastewater/general/index.html>.

The purpose of a public meeting is to provide the opportunity to submit written or oral comment or to ask questions about the proposed general permit. A public meeting is not a contested case hearing.

The hybrid in-person and virtual public meeting will be held at 9:30 a.m., May 21, 2025, in TCEQ's complex at 12100 Park 35 Circle, Building F, Room 2210, Austin, Texas 78753.

Correction of Error

The Texas Department of Insurance (TDI) adopted new 28 TAC §3.1 in the April 11, 2025, issue of the *Texas Register* (50 TexReg 2383). Due to an error by TDI, the word "Braille" was misspelled in one of the headings in the preamble. The heading should have been published as follows:

Section 3.22. Braille and Non-English Filings.

Also due to an error by TDI, the text of 28 TAC §3.1(6)(C) was missing the chapter designation in the text of the subparagraph. Adding the chapter designation to the subparagraph means the rule is adopted with changes from the proposal and should have been republished. The complete text of the rule is as follows:

NAME

TITLE: County Judge /Mayor/ City Manager

Program Category

To be eligible for consideration for funding, a law enforcement taskforce grant application must be designed to support one or more of the following MVCPA program categories (43 TAC §57.14):

Law Enforcement, Detection, and Apprehension - provide financial assistance to support law enforcement agencies for economic motor vehicle theft, including, but not limited to, theft of a catalytic converter attached to a motor vehicle, and fraud-related motor vehicle crime enforcement teams (referred to as taskforces). Taskforces will develop organized methods to combat economic motor vehicle theft, including, but not limited to, theft of a catalytic converter attached to a motor vehicle, burglary of a motor vehicle, and fraud-related motor vehicle crime through the enforcement of law. This may include recovery of vehicles, clearance of cases, arrest of law violators, and disruption of organized motor vehicle crime. This category includes the development of uniform programs to prevent stolen motor vehicles and stolen catalytic converters from entering Mexico or being removed from Texas through outbound seaports.

Prosecution/Adjudication/Conviction - provide financial support for taskforces to work with prosecutors and the judiciary to implement programs designed to reduce the incidence of catalytic converter theft.

Prevention, Anti-Theft Devices, and Automobile Registration - provide financial support for taskforces to work with organizations and communities to reduce the incidence of catalytic converter theft. The application shall demonstrate how financial support will assist motor vehicle owners to reduce catalytic converter theft.

Reduction of the Sale of Stolen Vehicles or Parts - provide financial support for taskforces to work with businesses, organizations, and communities to reduce the sale of catalytic converters. Applicants will develop organized methods to combat the sale of stolen catalytic converters using any of the following: vehicle identification number (VIN) inspections; inspections of motor vehicle part and component distribution enterprises; parts labeling and etching methods; and means to detect the fraudulent sale of stolen catalytic converters.

Educational Programs and Marketing - provide financial support for taskforces to work with individuals, businesses, organizations,

and communities to assist motor vehicle owners in detecting and preventing catalytic converter theft. Develop and provide specialized training or education program(s) to the public on detecting and preventing catalytic converter theft, law enforcement on interdiction and prosecution, and government officials on detecting and preventing catalytic converter theft in this state.

Priority Funding

The MVCPA enabling statute provides that "The authority shall allocate grant funds primarily based on the number of motor vehicles stolen in, or the motor vehicle burglary or theft rate across, and the number of fraud-related motor vehicle crimes committed in the state rather than based on geographic distribution." (TTC Section 1006.151(c); SB 224). In addition, the following grant features will be given priority consideration in evaluating new grant applications:

Continuing Funded Programs in Compliance with MVCPA Grant Conditions - Applications that provide for the continuation of existing programs that currently meet the program and fiscal reporting conditions of the MVCPA grant program. Applicants must provide the ongoing need and their progress and impactful performance toward detecting and preventing catalytic converter theft.

The applicant must describe the experience and qualifications of investigators used in the program and how utilization of grant inventory and resources for continued operation of these specialized investigative grant programs are useful for state and local governments.

Programs to Combat Organized Catalytic Converter Crime- Applications for detecting and preventing catalytic converter theft enforcement teams that introduce, increase, or expand efforts to detect and prevent theft of catalytic converters by organized crime.

Border and Port Security-Applications that provide specific initiatives to identify and prevent stolen catalytic converters from crossing the border with Mexico using automatic license plate readers, training of local state and federal personnel in the identification of stolen vehicles, and bridge and port inspections.

Use of Technology-Applications that incorporate automatic license plate reader programs, surveillance equipment, and other uses of tech-

nology to increase the number of stolen catalytic converters recovered and the number of persons arrested for catalytic converter crimes.

Theft of Parts from a Motor Vehicle-Applications that incorporate a reasonable, objective plan to combat and prevent the theft of catalytic converters.

Dedicated Prosecutors-Applications that incorporate a dedicated prosecutor to increase the priority of catalytic converter theft prosecutions and decrease the number of repeat offenders through successful and timely prosecution efforts.

Supporting Documents

Documents that provide evidence of local support or commitment from other officials or agencies for the application may be submitted following the same instructions as the Resolution. Interagency agreements shall be submitted prior to payments being authorized if an award is made. MVCPA recommends that interagency agreements be completed after award determinations are made to ensure correct amounts are reflected in those agreements. All interagency agreements must meet the conditions and elements required in the TxGMS.

Supplanting Prohibited

Grant funds provided by the Authority under this RFA shall not be used to supplant federal, state, or local funds that otherwise would be available for the same purposes (43 Texas Administrative Code §57.9). Supplanting means the replacement of other funds with MVCPA grant funds. This shall include using existing resources already available to a program activity as cash match.

NICB-Applicants may enter into formal agreements with the National Insurance Crime Bureau (NICB) to work on grant funded activities. The amount of salary and other direct costs related to the work on grant activity provided by the NICB may be reported. Time certifications are required to be made by the employee for these positions as required by TXGMS.

In-Kind Match

Only include in-kind match if necessary for the local jurisdiction. In-kind match may be used to: 1) reflect the total level of jurisdictions' effort/costs to combat catalytic converter theft; 2) reflect how the grant program fits into jurisdictions' operation; 3) effectively operate a single program with multiple funding streams; and/or 4) contributions from the applicant or third parties that are for grant-funded activity. Costs in detail line items shall not be split between in-kind match and grant funding. For example, the entire salary of an officer shall be placed in one expense type rather than split between grant and in-kind.

Reporting and Webinar Attendance Requirements

Applicants who are awarded grants will be required to provide:

Quarterly Progress Reports-The MVCPA requires the submission of quarterly progress reports to demonstrate progress toward meeting goals and activities provided in the grant application. These include: 1) Monthly progress toward meeting statutorily required performance measures; 2) Monthly progress recorded on the Goals, Strategies, and Activities report; and 3) Quarterly Summary and Success section. Grantees designated as Border/Port Security grants are required to complete additional sections required by the Texas Legislature.

Quarterly Financial Reports-Reports of actual expenses incurred are required to request funds. All expenditures must be in accordance with local policies and procedures and grant requirements. Grantees shall review all expenditures, ensure all applicable regulations are followed, and maintain documentation that is accurate and complete. All expenses must be supported by appropriate documentation.

Webinar Attendance: One grant financial representative from the applicant agency is required to attend a monthly session via teleconference or webinar that includes information on MVCPA grant administration.

One law enforcement officer is required to attend the information sharing and networking sessions on a monthly session via teleconference or webinar that includes law enforcement issues and other MVCPA issues critical to the successful operation of MVCPA taskforces.

h) Questions and Clarification-During the review period, the applicant may be contacted by Authority staff to ask questions or to seek clarification regarding information provided in the application. Failure to promptly respond will not disqualify an applicant, but information that is submitted after the review period may not be considered.
