Notice of District Petition

Notice issued May 23, 2024

TCEQ Internal Control No. D-04122021-017: Restore the Grasslands LLC, a Texas Limited Liability Company ("RTG"), submitted a jointer petition to the revised petition filed by Harrington/Turner Enterprises L.P, a Texas Limited Partnership ("HTE"), for creation of Collin County Municipal Utility District No. 7 (District) with the Texas Commission on Environmental Quality (TCEQ). The petitions were filed pursuant to Article XVI, §59 of the Constitution of the State of Texas; Chapters 49 and 54 of the Texas Water Code; 30 Texas Administrative Code Chapter 293; and the procedural rules of the TCEQ. The petitions state that: (1) RTG is the holder of title to the Property as shown by the Collin County Tax Rolls and conveyances of Record in the proposed District; (2) there are no lienholders on the property to be included in the proposed District; (3) the proposed District will contain approximately 101.829 acres located within Collin County, Texas; and (4) all of the land within the proposed District is wholly within the extraterritorial jurisdiction of the City of Parker, Texas. The petitions further state that the general nature of the work proposed to be done by the District, as contemplated at the present time, is to: (1) construct a water supply and distribution system for domestic purposes; (2) construct a sanitary sewer conveyance and treatment system; (3) control, abate, and amend the harmful excess of waters and the reclamation and drainage of overflowed lands within the proposed District; (4) construct and finance macadamized, graveled, or paved roads and turnpikes, or improvements in aid of those roads; and (5) construct, install, maintain, purchase, and operate such other facilities, systems, plants, and enterprises as shall be consistent with the purposes for which the District is organized, all to the extent authorized by law from time to time. According to the revised petition, a preliminary investigation has been made to determine the cost of the project, and it is estimated by the Petitioners, from the information available at this time, that the cost of said project will be approximately \$44,210,000 (\$27,560,000 for water, wastewater, and drainage facilities and \$16,650,000 for roads). In accordance with Local Government Code §42.042 and Texas Water Code §54.016, HTE submitted a petition to the City, requesting the City's consent to the creation of the District. After more than 90 days passed without receiving consent, HTE submitted a petition to the City to provide water and sewer services to the District. The 120-day period for reaching a mutually agreeable contract as established by Texas Water Code §54.016(c) expired and information provided indicates that the Petitioners and the City have not executed a mutually agreeable contract for service. Pursuant to Texas Water Code §54.016(d), failure to execute such an agreement constitutes authorization for the Petitioners to initiate proceedings to include the land with the district.

According to the petition, a preliminary investigation has been made to determine the cost of the project, and it is estimated by the Petitioner that the cost of said project will be approximately \$22,550,000 (\$16,250,000 for water, wastewater, and drainage plus \$6,300,000 for roads). In accordance with Local Government Code § 42.042 and Texas Water Code § 54.016, the Petitioner submitted a petition to the City, requesting the City's consent to the creation of the District. After more than 90 days passed without receiving consent, the Petitioner submitted a petition to the City to provide water and sewer services to the District. The 120-day period for reaching a mutually agreeable contract as established by the Texas Water Code § 54.016(c) expired and information provided indicates that the Petitioner and the City have not executed a mutually agreeable contract for service. Pursuant to Texas Water Code § 54.016(d), failure to execute such an agreement constitutes authorization for the Petitioner to proceed to the TCEQ for inclusion of the land into the District.

Notice and Opportunity to Comment on Requests for Consistency Agreement/Concurrence Under the Texas Coastal Management Program

On January 10, 1997, the State of Texas received federal approval of the Coastal Management Program (CMP) (62 *Federal Register* pp. 1439 - 1440). Under federal law, federal agency activities and actions affecting the Texas coastal zone must be consistent with the CMP goals and policies identified in 31 TAC Chapter 26. Requests for federal consistency review were deemed administratively complete for the following project(s) during the period of May 20, 2024 to May 31, 2024. As required by federal law, the public is given an opportunity to comment on the consistency of proposed activities in the coastal zone undertaken or authorized by federal agencies. Pursuant to 31 TAC §§30.20(f), 30.30(h), and 30.40(e), the public comment period extends 30 days from the date published on the Texas General Land Office web site. The notice was published on the web site on Friday, June 7, 2024. The public comment period for this project will close at 5:00 p.m. on Sunday July 7, 2024.

Federal Agency Activities:

Applicant: U.S. Fish and Wildlife Service

Location: The project site is located along the shoreline of the Gulf of Mexico within the Texas Point National Wildlife Refuge, approximately 1.35 miles southeast of the intersection of Texas 87 and Sea Rim Estates Road, in Sabine Pass, Jefferson County, Texas.

Latitude and Longitude:

Begin Beach Fill Template: 29.683834, -93.937538

End Beach Fill Template: 29.679168, -93.841707

Project Description: The applicant is proposing beach and dune nourishment activities which will result in the permanent placement of a maximum of 4.2 million cubic yards (CY) of offshore sand material within a 5.8-mile-long by 700-foot-wide beach and dune nourishment template along the Gulf of Mexico frontage for the purpose of reducing saltwater intrusion into interior freshwater marshes in Texas Point

National Wildlife Refuge and to slow shoreline retreat along the refuge coastline. The proposed project will result in permanent impacts to approximately 25 acres of wetlands and approximately 433 acres of waters and temporary impacts to approximately 5 acres of wetlands and approximately 23 acres of waters. The scope of work also includes the following: (1) construction of an approximate 500-foot by 250-foot western staging area next to Sea Rim Estates Road, (2) construction of an approximate 1.4-mile-long by 60-foot-wide western access corridor, (3) construction of an approximate 900-foot by 400-foot eastern access corridor and staging area, (4) two separate mooring area options on each side of Sabine Pass, each approximately 1,000-foot-long by 350-foot-wide, to allow the construction contractor flexibility, (5) potential construction of an approximate 0.3-mile-long by 150-foot-wide temporary pipeline corridor (if the eastern Sabine Pass mooring area is utilized) resulting in excavation of a maximum of 10,000 CY of channel bottom for the purpose of temporarily installing the transport pipe at least 2 feet below the authorized channel depth, (6) construction of an approximate 250-foot-long by 150-foot-wide temporary access channel along the western shoreline of Sabine Pass resulting in excavation of a maximum of 5,000 CY of channel bottom for the purpose of allowing shallow draft barges and construction boats access to the project site, and (7) excavation, at a conservative 1.3:1 cut to fill ratio, of a maximum of 4.2 million CY of sand material from two offshore borrow areas within the Sabine Banks; excavation methods will be trailing suction hopper dredges (hoppers) and/or hydraulic cutterhead dredges (cutterhead). Outer Continental Shelf (OCS) offshore Borrow Area 1 is approximately 462 acres located at approximately 29.469441, -93.735081 and Offshore Borrow Area 2 is approximately 470 acres located at 29.471028, -93.710691.

Post-construction, the applicant is proposing to plant approximately 122,000 plants on the back dune, dune crest, and foredune. Plant species will consist of the following: Bitter panicum, Sea Oats, Marshhay Cordgrass, Beach morning glory, Sea purslane.

A lease for use of Federal sand resources from the OCS Offshore Borrow Areas 1 and 2 (see Project Description section above) is required from BOEM. If you have any questions concerning the lease application, you may contact Ana Rice at Ana.Rice@boem.gov. Please furnish BOEM a copy of all public notice comments. BOEM has sole regulatory authority over the use of OCS sand resources and conveyance on the OCS under the OCS Lands Act. The Corps requires a permit for all other aspects of the project, including dredging of any state water bottom areas, as well as conveyance and placement of sand resources. BOEM and the Corps are working collaboratively to ensure effective implementation of the required National Environment Policy Act (NEPA) process, the required Endangered Species Act (ESA) Section 7 consultations, the Magnuson-Stevens Fishery and Conservation Management Act Essential Fish Habitat consultation (Section 305), the National Historic Preservation Act Section 106 process, and the Coastal Zone Management Act Section 307 consistency determination.

Type of Application: U.S. Army Corps of Engineers permit application # SWG-2023-00231. This application will be reviewed pursuant to Section 10 of the Rivers and Harbors Act of 1899 and Section 404 of the Clean Water Act.

CMP Project No: 24-1252-F2

Federal License and Permit Activities:

Applicant: San Jac Marine, LLC

Location: The project site is located within the San Jacinto Waste Pit Area of Concern, in Old River, at 17124 Market Street, in Channelview, Harris County, Texas.

Latitude and Longitude: 29.785848, -95.092171

Project Description: The applicant proposes to modify a previously authorized permit by discharging approximately 14,460 cubic yards of fill material below the Mean High Water (MHW) line of an approximate 1.1-acre man-made inlet and to install a 594-linear-foot sheet pile bulkhead wall to retain the fill. Additionally, 254 cubic yards of concrete will be placed behind the bulkhead wall at a 4:1 slope to create a ramp from the top of the bulkhead wall to the MHW line. In addition, three 42-inch dolphins will be installed in front of the bulkhead wall. The applicant is not impacting special aquatic sites, including wetlands, and is not proposing mitigation.

Type of Application: U.S. Army Corps of Engineers permit application # SWG-2006-01614. This application will be reviewed pursuant to Section 10 of the Rivers and Harbors Act of 1899 and Section 404 of the Clean Water Act. Note: The consistency review for this project may be conducted by the Texas Commission on Environmental Quality as part of its certification under §401 of the Clean Water Act.

CMP Project No: 24-1210-F1

Applicant: Galveston LNG Bunker Port, LLC

Location: The project site is located on Shoal Point in the southwestern portion of Galveston Bay, south of the Texas City Dike adjacent to the Texas City Ship Channel Turning Basin, in Galveston County, Texas.

Latitude and Longitude: 28.765193, -95.650717

Project Description: The applicant proposes to construct the Galveston Liquefied Natural Gas (LNG) Bunker Port Project, a natural gas liquefaction facility. To facilitate the construction and installation of this facility, the applicant proposes the following impacts to open water areas adjacent to on the western side of Shoal Point Island. The applicant proposes to construct a jetty with an associated berthing area, a marine offloading facility (MOF) and a personnel transfer dock (PTD) with an associated berthing area, bulkheads to support the structures and a heavy haul road from the MOF to the main site.

The jetty is proposed to be constructed along the western perimeter adjacent to the Texas City Ship Channel Turning Basin, which will include an access trestle comprised of marine pile foundations, pipeline support structures, and a pile supported loading platform with marine loading arms. The jetty will also include breasting and mooring dolphins with various gangways and walkways. Berthing infrastructure will include four breasting dolphins and two mooring dolphins, with an additional four mooring bollards landward of a proposed shoreline bulkhead to accommodate the berthed vessels.

The applicant proposes to dredge approximately 15,983 cubic yards (CY) to approximately -26.32 ft MHW utilizing mechanical and/or hydraulic dredging for the jetty berthing area. The shoreline bank will be dredged on a 3 to 1 slope to facilitate a proposed shoreline bulkhead wall. Steel piles will be constructed for barge mooring. The PTD will be a floating dock with steel guide piles and an aluminum gangway to a concrete deck, pile supported platform and walkway to the shore.

Access to the site for both construction and operation will be exclusively from the water side. This will require the construction of a MOF for equipment and construction materials and PTD for personnel. Both will be constructed north of the proposed jetty. The MOF berthing area will be dredged to approximately -13.32 ft MHW with a 3 to 1 slope on the bank. A dredge volume of 6,177 CY will be required for the MOF/PTD berthing areas, utilizing mechanical and/or hydraulic dredge.

The applicant also proposes to discharge fill to construct bulkheads adjacent to both the jetty and the MOF/PTD area. The jetty bulkhead will be constructed from steel sheet pile with clean earthen fill placed

behind it. A scour protection system, consisting of riprap and bedding stone with a geotextile underlayment is also proposed. This will require approximately 10,749 CY of fill below the high tide line (HTL).

The MOF bulkhead will consist of steel sheet pile bulkheads with compacted earthen fill, topped with compacted aggregate. This bulkhead will require approximately 6,546 CY of fill below the HTL.

A heavy haul road is also proposed to extend from the MOF to the main site, which will consist of compacted earthen fill with a compacted aggregate driving surface. Fill that will be required below HTL will equal approximately 102 CY.

The remaining land-based facilities will be constructed within the active Snake Island Cell C dredge material placement area (DMPA) on Shoal Point and are not proposed to impact waters of the US, wetlands, nor any special aquatic sites.

The applicant proposes to dispose of the dredge material into Shoal Point DMPA Cell C and/or Cell A.

The applicant is not proposing mitigation as the project scope avoids impacts to wetlands and special aquatic sites by design.

Type of Application: U.S. Army Corps of Engineers permit application # SWG-2024-00043. This application will be reviewed pursuant to Section 10 of the Rivers and Harbors Act of 1899 and Section 404 of the Clean Water Act. Note: The consistency review for this project may be conducted by The Texas Railroad Commission as part of its certification under §401 of the Clean Water Act.

CMP Project No: 24-1251-F1

Public Notice - Massage Therapy Updated Criminal Conviction Guidelines

The Texas Commission of Licensing and Regulation (Commission) provides this public notice that at its regularly scheduled meeting held May 21, 2024, the Commission adopted amendments to the Texas Department of Licensing and Regulation's (Department's) Criminal Conviction Guidelines pursuant to Texas Occupations Code §53.025(a). The Criminal Conviction Guidelines are updated from the original guidelines published on December 5, 2003, (28 TexReg 11018) to include the Massage Therapy program.

The Criminal Conviction Guidelines (guidelines) describe the process by which the Department determines whether a criminal conviction renders an applicant an unsuitable candidate for the license, or whether a conviction warrants revocation or suspension of a license previously granted. The guidelines present the general factors that are considered in all cases and the reasons why particular crimes are considered to relate to each type of license issued by the Department.

In 2015, the 84th Texas Legislature enacted Senate Bill 202 which provided for the transfer of thirteen health-related programs from the Department of State Health Services to TDLR. Seven of the thirteen programs transferred to TDLR, effective October 3, 2016, and the remaining six programs transferred November 1, 2017. The Massage Therapy program was transferred in the second phase.

The Criminal Conviction Guidelines for the Massage Therapy program will become a part of the overall guidelines that are already in place for other Department programs. The Department presented the Criminal Conviction Guidelines to the Commission on May 21, 2024, and were adopted as recommended.

A copy of the complete Criminal Conviction Guidelines is posted on the Department's website and may be obtained at www.tdlr.texas.gov.

Criminal Conviction Guidelines

MASSAGE THERAPY

Crimes against the person such as homicide, kidnapping and assault.

Reasons:

1. Licensees provide a personal service and interact with clients who consist of adults, the elderly, the disabled and children and, potentially, their care givers, family, friends, and others. Persons who have a history of committing such crimes would pose a danger to the clients or others.
2. This occupation involves physical contact with clients and, potentially, close proximity to and interaction with their care givers, family, friends, and others, in private settings, to include clients' homes.
3. This occupation provides persons with this type of criminal history the opportunity to engage in further similar conduct.

Crimes involving prohibited sexual conduct.

Reasons:

1. Section 455.152(a), Texas Occupations Code, states a person is not eligible for a license as a massage establishment, massage school, massage therapist, or massage therapy instructor if the person is an individual and has been convicted of, entered a plea of nolo contendere or guilty to, or received deferred adjudication for an offense involving trafficking of persons, an offense involving sexual assault, an offense involving the solicitation or promotion of prostitution, or an offense involving compelling prostitution.
2. Section 455.251(b)(1), Texas Occupations Code, requires the Commission or the Executive Director to revoke the license of a person licensed as a massage therapist or massage therapy instructor if the person has been convicted of, has entered a plea of guilty or nolo contendere to, or has received deferred adjudication for an offense involving trafficking of persons, an offense involving the solicitation or promotion of prostitution, or an offense involving compelling prostitution.

3. Section 455.251(c)(2), Texas Occupations Code, requires the Commission or the Executive Director to revoke the license of a person licensed as a massage school or massage establishment if an offense that involved prostitution or another sexual offense, and which resulted in a conviction, plea of guilty or nolo contendere to, or grant of deferred adjudication for the offense, occurred on the premises of the school or establishment.
4. Licensees sometimes provide massages to partially or fully undressed customers in private rooms, which would provide a licensee or a manager/owner of a massage establishment with a predisposition to sell sexual services to customers an effective cover for selling sexual services to customers.
5. Licensees provide a personal service and interact with clients, who consist of adults, the elderly, the disabled and children and potentially their care givers, family, friends, and others. Persons who have a history of committing such crimes would pose a danger to the clients or others.
6. This occupation involves physical contact with clients and, potentially, close proximity to and interaction with their care givers, family, friends, and others, in private settings.
7. This occupation provides persons with this type of criminal history the opportunity to engage in further similar conduct.

Crimes involving human trafficking.

Reasons:

Section 455.152(a), Texas Occupations Code, states a person is not eligible for a license as a massage establishment, massage school, massage therapist, or massage therapy instructor if the person is an individual and has been convicted of, entered a plea of nolo contendere or guilty to, or received deferred adjudication for an offense involving trafficking of persons.

1. Section 455.251(b)(1), Texas Occupations Code, requires the Commission or the Executive Director to revoke the license of a person licensed as a massage therapist or massage therapy instructor if the person has been

convicted of, has entered a plea of guilty or nolo contendere to, or has received deferred adjudication for an offense involving trafficking of persons.

2. Victims of human trafficking often lack legal immigration status, money, and the ability to speak English fluently. Such persons are at particular risk of being compelled to provide sexual services or forced labor. Such persons are also at particular risk of becoming victims of sex slavery. A license under Chapter 455 could provide persons with a history of committing human trafficking offenses the opportunity to exploit these vulnerable populations.
3. Customers of massage therapy establishments often receive massages in private rooms closed off from public view. This arrangement could provide an effective cover for forced labor or the sale of sexual services by employees who are victims of human trafficking. Accordingly, massage therapy work would provide a licensee with a predisposition to exploit trafficked individuals an effective cover for their exploitation.
4. Access to a massage establishment would provide licensees with a predisposition for and experience in human trafficking the opportunity to engage in further similar conduct to exploit victims of human trafficking through forced labor or the sale of sexual services by the victim.

Crimes involving racketeering, organized crime, criminal influence, or money laundering.

Reasons:

1. Persons with a predisposition and experience in committing crimes depriving others of money or property through a criminal enterprise, or have experience concealing the results of those crimes, would have the opportunity to engage in further similar conduct.

Crimes involving children, the elderly or the disabled as victims.

Reasons:

1. Licensees interact with clients who consist of children, the elderly, and the disabled and, potentially, their care givers, family, friends, and others, some of

whom may be children, elderly or disabled, as a personal service provider and in a position of trust and authority. Persons who have a history of committing such crimes could exploit this position and would pose a danger to the clients or others.

2. This occupation involves physical contact with clients and, potentially, close proximity to their care givers, family, friends, and others, in private settings.
3. This occupation provides persons with this type of criminal history the opportunity to engage in further similar conduct.

Crimes against property such as theft or burglary.

Reasons:

1. Licensees interact with adults, the elderly, the disabled and children in a service provider/client role, often in private settings. Licensees also interact with staff of massage therapy schools and massage therapy establishments. Persons who have a history of committing such crimes would pose a risk to the property of clients and others.
2. Licensees would have access to unsecured personal property of clients and their care givers, family, friends, and others.
3. This occupation provides persons with this type of criminal history the opportunity to engage in further similar conduct.

Crimes involving fraud or deceptive trade practices.

Reasons:

1. Licensees interact with clients and their care givers, family, friends, and others, as a provider and in a position of trust and authority. Persons who have a history of committing such crimes could exploit this position and would pose a danger to the clients or others or a threat to their economic assets.
2. This occupation involves close proximity to and physical contact with clients and their care givers, family, friends, and others in private settings.
3. Licensees would have access to personal and confidential information of clients.

4. Licensees may be involved in the billing of clients and may be involved in filing insurance claims and government documents.
5. This occupation provides persons with this type of criminal history the opportunity to engage in further similar conduct.

Crimes involving the possession, possession with intent to deliver, possession with intent to distribute, delivery, distribution or manufacture of drugs or other dangerous substances.

Reasons:

1. Licensees interact with clients and their care givers, family, friends, and others, as a provider and in a position of trust and authority. Persons who have a history of committing such crimes could exploit this position and would pose a danger to the clients or others by providing them with drugs, controlled substances or other dangerous substances.
2. This occupation involves close proximity to and physical contact with clients and their care givers, family and friends in private settings.
3. Persons who have a history of drug possession or dealing could potentially have drugs or other dangerous substances in their systems which would make them a danger to themselves or others.
4. These occupations provide persons with this type of criminal history the opportunity to engage in further similar conduct.

Crimes involving being under the influence of alcohol, drugs, or dangerous substances.

Reasons:

1. Licensees interact with adults, the elderly, the disabled and children in a provider/client role. Persons who have a history of committing such crimes would pose a danger to the clients or others.
2. This occupation involves close proximity to and physical contact with clients and their care givers, family and friends in private settings.
3. Persons with this type of criminal history could potentially have alcohol, drugs or other dangerous substances in their systems which would make them a danger to their clients or others.

Scratch Ticket Game prize of \$50.00, \$100 or \$500, a claimant shall sign the back of the Scratch Ticket in the space designated on the Scratch Ticket and may present the winning Scratch Ticket to any Texas Lottery Retailer. The Texas Lottery Retailer shall verify the claim and, if valid, and upon presentation of proper identification, if appropriate, make payment of the amount due the claimant and physically void the Scratch Ticket; provided that the Texas Lottery Retailer may, but is not required, to pay a \$50.00, \$100 or \$500 Scratch Ticket Game. In the event the Texas Lottery Retailer cannot verify the claim, the Texas Lottery Retailer shall provide the claimant with a claim form and instruct the claimant on how to file a claim with the Texas Lottery. If the claim is validated by the Texas Lottery, a check shall be forwarded to the claimant in the amount due. In the event the claim is not validated, the claim shall be denied and the claimant shall be notified promptly. A claimant may also claim any of the above prizes under the procedure described in Section 2.3.B and Section 2.3.C of these Game Procedures.

B. As an alternative method of claiming a "\$50, \$100 OR \$500!" Scratch Ticket Game prize the claimant may submit the signed winning Scratch Ticket and a thoroughly completed claim form via mail. Mail all to: Texas Lottery Commission, P.O. Box 16600, Austin, Texas 78761-6600. The Texas Lottery is not

responsible for Scratch Tickets lost in the mail. In the event that the claim is not validated by the Texas Lottery, the claim shall be denied and the claimant shall be notified promptly.

C. Prior to payment by the Texas Lottery of any prize, the Texas Lottery shall deduct the amount of a delinquent tax or other money from the winnings of a prize winner who has been finally determined to be:

- B. if there is any question regarding the identity of the claimant;
- C. if there is any question regarding the validity of the Scratch Ticket presented for payment; or
- D. if the claim is subject to any deduction from the payment otherwise due, as described in Section 2.3.D of these Game Procedures. No liability for interest for any delay shall accrue to the benefit of the claimant pending payment of the claim.

2.5 Payment of Prizes to Persons Under 18. If a person under the age of 18 years is entitled to a cash prize under \$600 from the "\$50, \$100 OR \$500!" Any rights to a prize that is not claimed within that period, and in the manner specified in these Game Procedures and on the back of each Scratch Ticket, shall be forfeited.

2.8 Disclaimer. The number of prizes in a game is approximate based on the number of Scratch Tickets ordered. Notwithstanding any name or names submitted on a claim form, the Executive Director shall make payment to the player whose signature appears on the back of the Scratch Ticket in the space designated. If more than one name appears on the back of the Scratch Ticket, the Executive Director will require that one of those players whose name appears thereon be designated by such players to receive payment.

B. The Texas Lottery shall not be responsible for lost or stolen Scratch Tickets and shall not be required to pay on a lost or stolen Scratch Ticket.
