Applicant must be a current SAPCS-State grantee to apply.

State Sexual Assault Coalitions - A statewide nonprofit organization that has been identified as a state sexual assault coalition by a state or federal agency authorized to make that designation.

How to Obtain Application Kit: The OAG will post the Application Kit on the OAG's website at <https://www.texasattorneygeneral.gov/divisions/grants>. Application Deadline: The Applicant must submit its application, including all required attachments, to the OAG by the deadline established in the Application Kit.

The OAG may give priority to Applicants that do not receive other sources of funding, including funding that originates from the Texas Compensation to Victims of Crime Fund.

Prohibitions on Use of Grant Funds: OAG grant funds may not be used to support or pay the costs of lobbying; contracting for grant activities that would otherwise be provided by employees of the grantee's organization; any portion of the salary or any other compensation for an elected government official; the purchase of food and beverages except as allowed under Texas State Travel Guidelines; the purchase or lease of vehicles; the purchase of promotional items or recreational activities; costs of travel that are unrelated to the direct delivery of services that support the OAG funded program; the costs for consultants or vendors who participate directly in writing a grant application; or for any unallowable costs set forth in applicable state or federal law, rules, regulations, guidelines, policies, procedures, cost principles, or the Federal Notice of Award for Rape Prevention Education. TWC, §7.075, also requires that the commission promptly consider any written comments received and that the commission may withdraw or withhold approval of an AO if a comment discloses facts or considerations that indicate that consent is inappropriate, improper, inadequate, or inconsistent with the requirements of the statutes and rules within the commission's jurisdiction or the commission's orders and permits issued in accordance with the commission's regulatory authority. Additional notice of changes to a proposed AO is not required to be published if those changes are made in response to written comments.

A copy of each proposed AO is available for public inspection at both the commission's central office, located at 12100 Park 35 Circle, Building C, 1st Floor, Austin, Texas 78753, (512) 239-2545 and at the applicable regional office listed as follows. This application was submitted to the TCEQ on May 10, 2024.

The executive director has determined the application is administratively complete and will conduct a technical review of the application. PUBLIC COMMENT/PUBLIC MEETING. You may submit public comments to the Office of the Chief Clerk at the address below. The TCEQ will consider all public comments in developing a final decision on the application. A public meeting is not a contested case hearing under the Administrative Procedure Act. During the Informal Discussion Period, the public will be encouraged to ask questions of the applicant and TCEQ staff concerning the permit application. The comments and questions submitted orally during the Informal Discussion Period will not be considered before a decision is reached on the permit application, and no formal response will be made. Responses will be provided orally during the Informal Discussion Period. During the Formal Comment Period on the permit application, members of the public may state their formal comments orally into the official record. At the conclusion of the comment period, all formal comments will be considered before a decision is reached on the permit application. A written response to all formal comments will be prepared by the executive director and will be sent to each person who submits a formal comment or who requested to be on the mailing list for this permit application and provides a mailing address. Only relevant and material issues raised during the Formal Comment Period can be considered if a contested case hearing is granted on this permit application.

Notice of Public Hearings and Opportunity for Comment on the Edwards Aquifer Protection Program

The Texas Commission on Environmental Quality (TCEQ or commission) conducts annual public hearings to receive comments from the public on actions the commission should take to protect the Edwards Aquifer from pollution, as required under Texas Water Code, §26.046. These annual public hearings are held by the Edwards Aquifer Protection Program and cover the TCEQ rules, found at Title 30, Texas Administrative Code, Chapter 213, which regulate development over the delineated contributing, recharge, and transition zones of the Edwards Aquifer. These annual public hearings assist the commission in its shared responsibility with local governments, such as cities, counties, and groundwater conservation districts, to protect the water quality of the aquifer.

This year the hearing will be conducted in person in two locations, TCEQ Headquarters in Austin and the TCEQ San Antonio Regional Office. The hearing in Austin will be at the TCEQ Headquarters located at 12100 Park 35 Circle, Austin, Texas 78753 on **Tuesday, October 29, 2024**, and begin at 10:00 a.m. in Building A, Room 172. The hearing in San Antonio will be at the TCEQ San Antonio Regional Office located at 14250 Judson Road, San Antonio, Texas 78233-4480 on **Wednesday, October 30, 2024**, and begin at 10:00 a.m. Persons who need special accommodations at the hearings should call the Office of the Chief Clerk at (512) 239-3300 or 1-800-RELAY-TX (TDD) at least five business days prior to the scheduled hearings.

The hearings will be structured for the receipt of oral or written comments by interested persons. There will be no open question and answer discussion during the hearing; however, agency staff members will be available to answer questions 30 minutes prior to and 30 minutes after the conclusion of the hearing. All other comments must be received by **5:00 p.m., Wednesday, October 30, 2024**.

Additional written comments submitted before or after the hearing should reference the Edwards Aquifer Protection Program and may be sent to Ms. Monica Reyes, Texas Commission on Environmental Quality, San Antonio Region, 14250 Judson Road, San Antonio, Texas 78233-4480 or emailed to eapp@tceq.texas.gov. For further information or questions concerning these hearings, please contact Ms. Reyes, or visit <https://www.tceq.texas.gov/permitting/eapp/program.html>.

A sample Resolution is attached as Appendix A.

Program Category

To be eligible for consideration for funding, a law enforcement taskforce grant application must be designed to support one or more of the following MVCPA program categories (43 TAC §57.14):

Law Enforcement, Detection, and Apprehension - provide financial support to law enforcement agencies for catalytic converter theft and crime enforcement teams (referred to as taskforces). Taskforces will develop organized methods to combat catalytic converter theft through the enforcement of applicable law. This may include recovery of vehicles, clearance of cases, arrest of law violators, and disruption of organized motor vehicle crime. This category includes development of uniform programs to prevent stolen catalytic converters from entering Mexico or being removed from Texas through outbound seaports.

Prosecution/Adjudication/Conviction - provide financial support for taskforces to work with prosecutors and the judiciary to implement programs designed to reduce the incidence of catalytic converter theft.

Prevention, Anti-Theft Devices and Automobile Registration - provide financial support for taskforces to work with organizations and communities to reduce the incidence of catalytic converter theft. The application shall demonstrate how financial support will assist motor vehicle owners to reduce catalytic converter theft.

Reduction of the Sale of Stolen Vehicles or Parts - provide financial support for taskforces to work with businesses, organizations, and com-

munities to reduce the sale of catalytic converters. Applicants will develop organized methods to combat the sale of stolen catalytic converters using any of the following: vehicle identification number (VIN) inspections; inspections of motor vehicle part and component distribution enterprises; parts labeling and etching methods; and means to detect the fraudulent sale of stolen catalytic converters.

Educational Programs and Marketing - provide financial support for taskforces to work with individuals, businesses, organizations, and communities to assist motor vehicle owners in detecting and preventing catalytic converter theft. Develop and provide specialized training or education program(s) to the public on detecting and preventing catalytic converter theft, law enforcement on interdiction and prosecution, and government officials on detecting and preventing catalytic converter theft in this state.

Priority Funding

The MVCPA enabling statute provides that "The authority shall allocate grant funds primarily based on the number of motor vehicles stolen in, or the motor vehicle burglary or theft rate across, and the number of fraud-related motor vehicle crimes committed in the state rather than based on geographic distribution." (TTC Section 1006.151(c); SB 224). In addition, the following grant features will be given priority consideration in evaluating new grant applications:

Continuing Funded Programs in Compliance with MVCPA Grant Conditions - Applications that provide for the continuation of existing programs that currently meet the program and fiscal reporting conditions of the MVCPA grant program. Applicants must provide the ongoing need and their progress and impactful performance toward detecting and preventing catalytic converter theft.

The applicant must describe the experience and qualifications of investigators used in the program and how utilization of grant inventory and resources for continued operation of these specialized investigative grant programs are useful for state and local governments.

Programs to Combat Organized Catalytic Converter Crime - Applications for detecting and preventing catalytic converter theft enforcement teams that introduce, increase, or expand efforts to detect and prevent theft of catalytic converters by organized crime.

Border and Port Security - Applications that provide specific initiatives to identify and prevent stolen catalytic converters from crossing the border with Mexico using automatic license plate readers, training of local state and federal personnel in the identification of stolen vehicles, and bridge and port inspections.

Use of Technology - Applications that incorporate automatic license plate reader programs, surveillance equipment, and other uses of technology to increase the number of stolen catalytic converters recovered and the number of persons arrested for catalytic converter crimes.

Theft of Parts from a Motor Vehicle - Applications that incorporate a reasonable, objective plan to combat and prevent the theft of catalytic converters.

Dedicated Prosecutors - Applications that incorporate a dedicated prosecutor to increase the priority of catalytic converter theft prosecutions and decrease the number of repeat offenders through successful and timely prosecution efforts.

Supporting Documents

Documents that provide evidence of local support or commitment from other officials or agencies for the application may be submitted following the same instructions as the Resolution. Interagency agreements shall be submitted prior to payments being authorized if an award is made. MVCPA recommends that interagency agreements be com-

pleted after award determinations are made to ensure correct amounts are reflected in those agreements. All interagency agreements must meet the conditions and elements required in the TxGMS.

Supplanting Prohibited

Grant funds provided by the Authority under this RFA shall not be used to supplant federal, state, or local funds that otherwise would be available for the same purposes (43 Texas Administrative Code §57.9). Supplanting means the replacement of other funds with MVCPA grant funds. This shall include using existing resources already available to a program activity as cash match.

NICB - Applicants may enter into formal agreements with the National Insurance Crime Bureau (NICB) to work on grant funded activities. The amount of salary and other direct costs related to the work on grant activity provided by the NICB may be reported. Time certifications are required to be made by the employee for these positions as required by TXGMS.

In-Kind Match

Only include in-kind match if necessary for the local jurisdiction. In-kind match may be used to: 1) reflect the total level of jurisdictions' effort/costs to combat catalytic converter theft; 2) reflect how the grant program fits into jurisdictions' operation; 3) effectively operate a single program with multiple funding streams; and/or 4) contributions from the applicant or third parties that are for grant funded activity. Costs in detail line items shall not be split between in-kind match and grant funding. For example, the entire salary of an officer shall be placed in one expense type rather than split between grant and in-kind.

Reporting and Webinar Attendance Requirements

Applicants that are awarded grants will be required to provide:

Quarterly Progress Reports - The MVCPA requires the submission of quarterly progress reports to demonstrate progress toward meeting goals and activities provided in the grant application. These include: 1) Monthly progress toward meeting statutorily required performance measures; 2) Monthly progress recorded on the Goals, Strategies and Activities report; and 3) Quarterly Summary and Success section. Grantees designated as Border/Port Security grants are required to complete additional sections required by the Texas Legislature.

Quarterly Financial Reports - Reports of actual expenses incurred are required to request funds. All expenditures must be in accordance with local policies and procedures and grant requirements. Grantees shall review all expenditures, ensure all applicable regulations are followed, and maintain documentation that is accurate and complete. All expenses must be supported by appropriate documentation.

Webinar Attendance: One grant financial representative from the applicant agency is required to attend a monthly session via teleconference or webinar that includes information on MVCPA grant administration.

One law enforcement officer is required to attend the information sharing and networking sessions on a monthly session via teleconference or webinar that includes law enforcement issues and other MVCPA issues critical to the successful operation of MVCPA taskforces.

Funding Requirements and Conditions:

State Funds Availability - All awards by the MVCPA are subject to availability of state funds.

Right of Refusal - The Authority reserves the right to reject any or all the applications submitted.

Awards - Publishing the RFA does not legally obligate the Authority to fund any programs.

Partial Funding - The Authority may choose to offer funds for all, or any portion of a program submitted in an application.

Substitution - The Authority may offer alternative funding sources, special conditions, or alternative program elements in response to submitted Applications.

Application Required - Registration for on-line access is required. The MVCPA is not responsible for applicants that cannot complete the registration and application process on time.

No Alternative Application Submission - Paper applications and requests for funding are not accepted in lieu of the on-line grant application process.

Review Criteria - Authority staff and any designated MVCPA Board member(s) will review each grant using subjective and objective tools and comparative analysis. The weight given to each section or combination of sections is at the sole discretion of the Authority.

Questions and Clarification - During the review period, the applicant may be contacted by Authority staff to answer questions or to seek clarification regarding information provided in the application. Failure to promptly respond will not disqualify an applicant, but information that is submitted after the review period may not be considered.

Final Selection - The Authority may select and award programs that best meet the statutory and legislative purposes of SB 224 and that reflect its current priorities. No appeal may be made regarding the Authority's decisions.

Changes in Application - If an applicant proposes changes to be made in the program type or participation of jurisdictions after an award is determined, then the Authority will review the changes and may make modifications (including the amount) or cancel the award as deemed appropriate by the Authority.

Delayed Start - An applicant that is awarded a grant and does not begin operations within 30 days of the issuance of the Statement of Grant Award is considered terminated.

Application instructions - the MVCPA will provide additional details and instructions in the on-line application system that are incorporated by reference as part of this RFA and which must be followed during the application and award process.

Program Income - is defined in the TxGMS. Current grantees carrying forward program income to future years will follow the new rules established by the Texas Comptroller and MVCPA Grant Administrative Manual.

TCOLE Certifications Required - All law enforcement agencies regulated by Chapter 1701, Occupations Code must certify that they are in compliance with the Texas Commission on Law Enforcement standards or provide a certification from the Texas Commission on Law Enforcement that states that the requesting agency is in the process of achieving compliance with said rules.

Texas Water Development Board

Correction of Error

The Texas Water Development Board proposed new 31 TAC Chapter 363, Subchapter A in the August 30, 2024, issue of the *Texas Register* (49 TexReg 6709). Due to an error by the Texas Register, the text of 31 TAC §363.33(a)(3) was published incorrectly. The correct text of the paragraph should read as follows:

(3) Interest rates for loans from the Water Loan Assistance Fund, or from funds from the board's sale of political subdivision bonds to the Texas Water Resources Finance Authority will be set and updated as necessary to meet changing market conditions according to the cost of funds to the board, risk factors of managing the board's loan portfolio, and market rate scales. [according to the Municipal Market Data A seale] To calculate the cost of funds, the board will weight the funds pro rata amount of funds available from each source, as applicable. The in-

terest rate scale will include the program subsidy, if any, as determined by the board. The board may establish different interest rates for loans under this paragraph if it finds such rates are legislatively directed or are necessary to promote major water initiatives designed to provide significant regional benefit.
