Eligible Applicants. Texas Education Agency (TEA) is requesting applications under RFA #701-25-111 from eligible applicants, which include open-enrollment charter schools that meet the federal definition of a charter school, have never received funds under this grant program, and are one of the following. (1) An open-enrollment charter school campus designated by the commissioner of education, for the 2023-2024, 2024-2025, or 2025-2026 school year, as a high-quality campus pursuant to 19 TAC §100.1033(b)(9) and (13). (2) Open-enrollment charter schools submitting an expansion amendment request and corresponding application for high-quality campus designation for the 2024-2025 or 2025-2026 school year by December 16, 2024, are considered eligible to apply for the grant. However, the commissioner must approve the expansion amendment request and designate the campus as a high-quality campus prior to the charter receiving grant funding, if awarded. (3) An open-enrollment charter school authorized by the commissioner of education under the Generation 28 or Generation 29 charter application pursuant to TEC, Chapter 12, Subchapter D, that has never received funds under this grant program. (4) A campus charter school authorized by the local board of trustees pursuant to TEC, Chapter 12, Subchapter C, on or before December 16, 2024, as a new charter school, or as a charter school that is designed to replicate a new charter school campus, based on the educational model of an existing high-quality charter school, and that submits all required documenta-

Important: Any charter school that does not open prior to Wednesday, September 3, 2025, after having been awarded grant funds, may be required to forfeit any remaining grant funds and may be required to reimburse any expended amounts to TEA.

Description. The purpose of the Texas Quality Charter Schools Program Grant is to support the growth of high-quality charter schools in Texas, especially those focused on improving academic outcomes for educationally disadvantaged students. This will be achieved through administering the 2024-2025 Charter School Program (Subchapter C and D, Cycle 3) Grant to assist eligible applicants in opening and preparing for the operation of newly-authorized charter schools and replicated high-quality schools.

Dates of Project. The 2024-2025 Charter School Program (Subchapter C and D, Cycle 3) Grant will be implemented during the 2024-2025 and 2025-2026 school years. Applicants should plan for a starting date of no earlier than February 15, 2025, and an ending date of no later than September 30, 2025.

Project Amount. Approximately \$15,721,865 is available for funding the 2024-2025 Charter School Program (Subchapter C and D, Cycle 3) Grant. It is anticipated that approximately 17 grants will be awarded up to \$900,000. This project is funded 100% with federal funds.

Selection Criteria. Applications will be selected based on the ability of each applicant to carry out all requirements contained in the RFA. Reviewers will evaluate applications based on the overall quality and validity of the proposed grant programs and the extent to which the applications address the primary objectives and intent of the project. Applications must address each requirement as specified in the RFA to be considered for funding. TEA reserves the right to select from the highest-ranking applications those that address all requirements in the RFA.

TEA is not obligated to approve an application, provide funds, or endorse any application submitted in response to this RFA. This RFA does not commit TEA to pay any costs before an application is approved. The issuance of this RFA does not obligate TEA to award a grant or pay any costs incurred in preparing a response.

The petition was filed pursuant to Article XVI, §59 of the Constitution of the State of Texas; Chapters 49 and 54 of the Texas Water Code; 30 Texas Administrative Code Chapter 293; and the procedural rules of the TCEQ. The petition states that: (1) the Petitioners hold title to a majority in value of the land to be included in the proposed District; (2) the proposed District will contain approximately 736.163 acres located within Bastrop County, Texas; and (3) none of the land within the proposed District is within the boundaries or extraterritorial jurisdiction of any municipality. By Resolution No. R-2024-23, passed and approved on February 27, 2024, and effective September 26, 2023, the City of Bastrop accepted the Petition for Release from the City's extraterritorial jurisdiction filed by the Petitioners for the land included in the proposed District and such land was released by operation of law on November 13, 2023. The proposed District is now located outside the corporate limits and extraterritorial jurisdiction of any city, town, or village. Therefore, city consent is not required. The petition further states that the proposed District will: (1) provide a water supply for municipal uses, domestic uses and commercial purposes; (2) collect, transport, process, dispose of and control all domestic, industrial or communal wastes whether in fluid, solid, or composite state; (3) gather, conduct, divert and control local storm water or other local harmful excess of water in the District and the payment of organization expenses, operational expenses during construction and interest during construction; (4) design, acquire, construct, finance, improve, operate and maintain macadamized graveled, or paved roads, or improvements in aid of those roads; (5) purchase, construct, acquire, provide, operate, maintain, repair, improve, extend and develop park and recreational facilities for the inhabitants of the District; and (6) provide such other facilities, systems, plants and enterprises as shall be consonant with the purposes for which the District is created and permitted under state law. According to the petition, a preliminary investigation has been made to determine the cost of the project, and it is estimated by the Petitioners that the cost of said project will be approximately \$99,650,000 (\$72,000,000 for water, sewer, and drainage facilities; \$500,000 for park and recreation facilities; and \$27,150,000 for roads).

PUBLIC COMMENT/PUBLIC MEETING. You may submit public comments to the Office of the Chief Clerk at the address below. The TCEQ will consider all public comments in developing a final decision on the application. A public meeting is not a contested case hearing under the Administrative Procedure Act. During the Informal Discussion Period, the public will be encouraged to ask questions of the applicant and TCEQ staff concerning the permit application. The comments and questions submitted orally during the Informal Discussion Period will not be considered before a decision is reached on the permit application, and no formal response will be made. Responses will be provided

orally during the Informal Discussion Period. During the Formal Comment Period on the permit application, members of the public may state their formal comments orally into the official record. At the conclusion of the comment period, all formal comments will be considered before a decision is reached on the permit application. A written response to all formal comments will be prepared by the executive director and will be sent to each person who submits a formal comment or who requested to be on the mailing list for this permit application and provides a mailing address. Only relevant and material issues raised during the Formal Comment Period can be considered if a contested case hearing is granted on this permit application.

Senate Bill (SB) 1397, 88th Session, amended Chapter 382 of the THSC to require TCEQ to issue a standard permit for temporary concrete plants that perform wet batching, dry batching, or central mixing to support public works projects. THSC, §382.051985 requires that a plant operating under the new standard permit must be located in or contiguous to the right-of-way of the public works project; may occupy a designated site for not more than 180 consecutive days or to supply material for a single project; and may not support a project which is not related to the public works project. The proposed standard permit contains conditions to ensure that facilities authorized by the standard permit meet the criteria of THSC, §382.051985, and includes emission control requirements, best management practices, and recordkeeping requirements to ensure the new standard permit is protective of human health and the environment and is enforceable.

The proposed non-rule air quality standard permit is subject to a 30-day comment period. During the comment period, any person may submit written comments. After the comment period, TCEQ may revise the draft standard permit if appropriate. The final standard permit will then be considered by the commission for adoption. Notice and Opportunity to Comment on Requests for Consistency Agreement/Concurrence Under the Texas Coastal Management Program

On January 10, 1997, the State of Texas received federal approval of the Coastal Management Program (CMP) (62 *Federal Register* pp. 1439 - 1440). Under federal law, federal agency activities and actions affecting the Texas coastal zone must be consistent with the CMP goals and policies identified in 31 TAC Chapter 26. Requests for federal consistency review were deemed administratively complete for the following project(s) during the period of, October 14, 2024 to October 18, 2024. As required by federal law, the public is given an opportunity to comment on the consistency of proposed activities in the coastal zone undertaken or authorized by federal agencies. Pursuant to 31 TAC §§30.20(f), 30.30(h), and 30.40(e), the public comment period extends 30 days from the date published on the Texas General Land Office web site. The notice was published on the web site on Friday, October 25, 2024. The public comment period for this project will close at 5:00 p.m. on Sunday, November 24, 2024.

Federal Agency Activities:

Applicant: Department of Energy

Location: The surveys are proposed to occur within Texas state waters, within 9 n.mi. from shore; however, the primary study area is no closer to shore than the 10-m isobath or ~1.3 km (closest point of approach is Port Aransas). If no suitable sites (i.e., lease areas) are available within Texas state waters, the surveys would occur on the outer continental shelf but within the 30-m isobath or between 13.3 and up to 115 km from shore (alterative study area). The actual surveys (or survey area) would occur in a limited area (~50 km²) anywhere within the proposed study area, although a site within the primary study area is preferred. All activities would occur within the U.S. Exclusive Economic Zone, between ~27.1-29.6°N and ~93.6-97.4°W. The water depth at the site could be as shallow as 10 m and no deeper than 30 m.

Project Description: The U.S. Department of Energy (DOE) National Energy Technology Laboratory prepared this Draft Environmental Assessment to analyze the potential environmental, cultural, and social impacts of partially funding the University of Texas at Austin (UT) to conduct high-resolution 3-dimensional marine seismic surveys in the Gulf of Mexico (GoM) as part of the GoMCarb initiative. The surveys would be used to study the geologic environments beneath the GoM for secure, long-term, large-scale carbon dioxide (CO₂) storage. DOE's proposed action is to provide funding to UT for this research. The proposed seismic surveys would be conducted from a research vessel on the shallow shelf (<30 meters deep) off Texas. The surveys would use up to 2 Generator-Injector (GI) airguns, with a total discharge volume of ~210 in³. The proposed surveys would take place sometime during January-April 2025 for a period of approximately 23 days, including 20 days of airgun operations.

Type of Application: Draft Environmental Assessment for Marine Geophysical Surveys by University of Texas in the Northwestern Gulf of Mexico, 2025. DOE/EA-2267: Marine Geophysical Surveys; Northwestern Gulf of Mexico | Department of Energy. <https://www.energy.gov/nepa/doeca-2267-marine-geophysical-surveys-northwestern-gulf-mexico>.

CMP Project No: 25-1038-F2

Federal License and Permit Activities:

Applicant: WR Production, LLC

Location: The project site is located in Galveston Bay, approximately 2.2 miles east-southeast of San Leon, in Galveston County, Texas.

Latitude and Longitude: 29.475694, -094.882056

Project Description: The applicant proposes to discharge approximately 573 cubic yards of fill material into a 0.1-acre area of the Gulf of Mexico in association with the expansion of an oil drill rock pad. Additionally, the proposed project includes the construction of thirteen, 5-pile clusters for drill barge stabilization. The 5-pile clusters will be approximately 12-foot-tall. The applicant also proposes to construct a 200-square-foot well protector platform which will be situated 3 feet above the mean high-water line. The applicant has not proposed compensatory mitigation for this project as there are no proposed fill material to be placed within wetland aquatic features.

Type of Application: U.S. Army Corps of Engineers permit application # SWG-2005-01730. This application will be reviewed pursuant to Section 10 of the Rivers and Harbors Act of 1899 and Section 404 of the Clean Water Act. Note: The consistency review for this project may be conducted by the Railroad Commission of Texas as part of its certification under §401 of the Clean Water Act.

CMP Project No: 25-1037-F1

Further information on the applications listed above, including a copy of the consistency certifications or consistency determinations for inspection, may be obtained from the Texas General Land Office Public Information Officer at 1700 N. Congress Avenue, Austin, Texas 78701, or via email at pialegal@glo.texas.gov. Texas Department of Housing and Community Affairs

Announcement of the Public Comment Period for the Draft 2024 State of Texas Consolidated Plan Annual Performance Report - Reporting On Program Year 2023

The Texas Department of Housing and Community Affairs (TDHCA) announces the opening of a 15-day public comment period for the State of Texas Draft 2024 Consolidated Plan Annual Performance Report - Reporting on Program Year 2023 (the Report) as required by the U.S. Department of Housing and Urban Development (HUD). The Report is required, as part of the overall requirements, governing the State's consolidated planning process. The Report is submitted in compliance with 24 CFR §91.520, Consolidated Plan Submissions for Community Planning and Development Programs. The 15-day public comment period begins Friday, November 1, 2024, and continues until 5:00 p.m. Central Time on Friday, November 15, 2024.

The Report gives the public an opportunity to evaluate the performance of the past program year for five HUD programs: the Community Development Block Grant Program (CDBG) administered by the Texas Department of Agriculture (TDA), the Housing Opportunities for Persons with AIDS Program (HOPWA) administered by the Texas Department of State Health Services (DSHS), and the Emergency Solutions

Grants (ESG), HOME Investment Partnerships, and National Housing Trust Fund programs, administered by TDHCA. The following information is provided for each of the programs covered in the Report: a summary of program resources and programmatic accomplishments; a series of narrative statements on program performance over the past year; a qualitative analysis of program actions and experiences; and a discussion of program successes in meeting program goals and objectives.

In addition, the report provides a summary and analysis of four new HUD funded programs created in response to and to recover from the COVID-19 Pandemic. These new programs are CDBG-CV, ESG-CV, and HOME-ARP administered by TDHCA and HOPWA-CV administered by DSHS.

Beginning November 1, 2024, the Report will be available on the Department's website at <https://www.tdhca.texas.gov/tdhca-public-comment-center>. A hard copy can be requested by contacting the Housing Resource Center at P.O. Box 13941, Austin, Texas 78711-3941 or by calling (512) 475-3976.

Written comment should be sent by mail to the Texas Department of Housing and Community Affairs, Housing Resource Center, P.O. Box 13941, Austin, Texas 78711-3941, or by email to info@tdhca.texas.gov.
