### Texas Health and Safety Code and Texas Water Code Settlement Notice

The State of Texas gives notice of the following proposed resolution of an environmental enforcement action under the Texas Health and Safety Code and the Texas Water Code. Before the State may enter into a voluntary settlement agreement, pursuant to section 7.110 of the Texas Water Code, the State shall permit the public to comment in writing. The Attorney General will consider any written comments and may withdraw or withhold consent to the proposed agreement if the comments disclose facts or considerations indicating that consent is inappropriate, improper, inadequate, or inconsistent with the requirements of the law.

Case Title and Court: *Harris County, Texas and The State of Texas Acting by and through the Texas Commission on Environmental Quality, a Necessary and Indispensable Party v. Rancho El Conquistador LLC, Eleazar Cortina, and Sandra K. Martinez*; Cause No. 2024-18265; in the 151st Judicial District Court of Harris County, Texas.

Background: This lawsuit concerns real property located at or near 0 Security Lane, Houston, Texas 77049 (the "Site"), where defendants are accused of dumping municipal solid waste and solid waste. The Site is also referred to as "Lot 22, Block 2, Sheldon Acres." Harris County, Texas ("Harris County") filed an environmental enforcement action against defendants, which was joined by the State of Texas (the "State") by and through the Texas Commission on Environmental Quality as a Necessary and Indispensable Party.

On June 14, 2016, Defendant Conquistador purchased the Site. On June 29, 2023, Defendant Conquistador sold the Site to Defendant Cortina (Defendant Conquistador's registered agent and sole director) and Defendant Martinez. On September 19, 2023, Defendant Martinez sold the Site back to Defendant Conquistador.

On February 21, 2022, Harris County Pollution Control Services ("HCPCS") received a complaint about solid waste dumping at the Site. HCPCS conducted an investigation on February 22, 2022, finding that the site contained used and broken railroad ties as well as concrete and asphalt waste. Seven subsequent investigations showed that: the concrete and asphalt waste was removed; 40 cubic yards of scrap metal were stored on the ground and then removed; the railroad ties were fully removed and legally disposed of by December 28, 2023.

Plaintiff, Harris County, filed suit on March 21, 2024, asserting claims that defendants caused, suffered, allowed and/or permitted the unauthorized storage and disposal of Industrial and Municipal Solid Waste at their property located on 0 Security Lane, in violation of the Texas Solid Waste Disposal Act, Texas Water Code, and Texas Commission on Environmental Quality ("TCEQ") rules. Plaintiff, the State, was joined to the suit as a Necessary and Indispensable Party. The Parties have reached an agreement to resolve the pending enforcement claims only.

Proposed Agreed Judgment: The Parties propose an Agreed Final Judgment which provides for a total monetary award of TWENTY-SEVEN THOUSAND AND NO CENTS (\$27,000.00) in

civil penalties and attorney's fees from the Defendants. An award of TWENTY-FOUR THOUSAND AND NO CENTS (\$24,000.00) in civil penalties is to be divided evenly between Harris County and the State. The award of THREE THOUSAND AND NO CENTS (\$3,000.00) in attorney's fees is to be divided evenly between Harris County and the State. In addition, Harris County also has a judgement against the Defendants for court costs in the amount of TWO-HUNDRED THIRTY-SEVEN DOLLARS AND NO CENTS (\$237.00). Defendants are to make separate monthly payments to both Harris County and the State, until the judgment amount is paid in full to Harris County for THIRTEEN THOUSAND SEVEN HUNDRED THIRTY-SEVEN DOLLARS AND NO CENTS (\$13,737.00) and to the State for THIRTEEN THOUSAND FIVE HUNDRED DOLLARS AND NO CENTS (\$13,500.00). Plaintiffs have the right to initiate collection proceedings on any overdue amounts if the payment is more than 30 days late.

For a complete description of the proposed settlement, the complete proposed Agreed Final Judgment should be reviewed in its entirety. Requests for copies of the proposed settlement, and written comments on the same, should be directed to Heather Coffee, Assistant Attorney General, Office of the Attorney General of Texas, P.O. Box 12548, MC-066, Austin, Texas 78711-2548, (512) 463-2012, facsimile (512) 320-0911; email: Heather.Coffee@oag.texas.gov. Written comments must be received within 30 days of publication of this notice to be considered.

### Texas Health and Safety Code and Texas Water Code Settlement Notice

The State of Texas gives notice of the following proposed resolution of an environmental enforcement action under the Texas Water Code and the Texas Health and Safety Code. Before the State may enter into a voluntary settlement agreement, pursuant to Section 7.110 of the Texas Water Code, the State shall permit the public to comment in writing. The Attorney General will consider any written comments and may withdraw or withhold consent to the proposed agreement if the comments disclose facts or considerations indicating that consent is inappropriate, improper, inadequate, or inconsistent with the requirements of the law.

Case Title and Court: *Intercontinental Energy Corporation v. Texas Commission on Environmental Quality, CBS Corporation, Tim Smith, Betty Waldean Woelfel, Martha Hahn, Dorothy Lindholm, and Mary Alice Dunaway*; Cause No. D-1-GN-02-003257; in the 345th Judicial District Court, Travis County, Texas.

Background: The lawsuit in this case commenced in 2002 as an interpleader suit filed by the Trustee of the Lamprecht Mine Trust regarding the disbursement of funds to pay for the costs of environmental ra-

diation care activities, including decommissioning, decontaminating, restoring and reclaiming the Lamprecht and Zamzow *in situ* uranium mine and uranium recovery facilities in Live Oak County, Texas, previously operated by Intercontinental Energy Corporation, a party to the Trust. Over \$1 million in trust fund was deposited into the Court's registry when the suit was filed. The Texas Commission on Environmental Quality (TCEQ) is the successor state agency to the Texas Department of Health, also a party to the Trust, that holds regulatory authority over uranium mines. CBS Corporation and several landowners intervened, claiming to be parties affected by the administration of the Trust. A 2010 settlement order authorized TCEQ to solicit bids to administer and conduct the environmental radiation care activities. No bids have been received and by 2023, TCEQ had expended over \$1 million, appropriated from the State's Environmental Radiation Perpetual Care Account, on remediating the Lamprecht and Zamzow sites and releasing them for unrestricted use.

**Proposed Settlement:** The proposed Agreed Final Judgment is between TCEQ and CBS Corporation only. It authorizes the disbursement of all funds, including any accrued interests, held in the Court registry to TCEQ for deposit into the State's Environmental Radiation Perpetual Care Account. The parties also agree to release all claims and causes of action arising from this lawsuit against each other, and covenant not to sue or take administrative or civil action that may arise from this lawsuit against each other.

For a complete description of the proposed settlement, the Agreed Final Judgment should be reviewed in its entirety. Requests for copies of the proposed judgment and settlement, and written comments on the same, should be directed to Clark Reeder, Assistant Attorney General, Office of the Attorney General of Texas, P.O. Box 12548, MC 066, Austin, Texas 78711-2548, (512) 463-2012, facsimile (512) 320-0911, email: Clark.Reeder@oag.texas.gov. Written comments must be received within 30 days of publication of this notice to be considered.

Texas Commission on Environmental Quality

Filed: October 29, 2024

Combined Amended Notice of Public Meeting (To Change Date of the Public Meeting) and Notice of Receipt of Application and Intent to Obtain Water Quality Permit (NORI) and Notice of Application and Preliminary Decision (NAPD) for TPDES Permit for Municipal Wastewater Renewal Permit No. WQ0015000001

**APPLICATION AND PRELIMINARY DECISION.** City of Liberty Hill, 926 Loop 332, Liberty Hill, Texas 78642, has applied to the Texas Commission on Environmental Quality (TCEQ) for a **renewal** of Texas Pollutant Discharge Elimination System (TPDES) Permit No. WQ0015000001, which authorizes the discharge of treated domestic wastewater at an annual average flow not to exceed 1,400,000 gallons per day. TCEQ received this application on March 23, 2023.

**This combined notice is being issued to replace "renewal with minor amendment" with "renewal" that was provided in the NORI and NAPD.**

The facility will be located approximately 2.5 miles north of the intersection of Ronald Reagan Boulevard and State Highway 29, in Williamson County, Texas 78628. The treated effluent will be discharged to an unnamed tributary, thence to Soves Branch, thence to North Fork San Gabriel River in Segment No. 1251 of the Brazos River Basin. The unclassified receiving water uses are minimal aquatic life use for the unnamed tributary, and limited aquatic life use for Soves Branch. The designated uses for Segment No. 1251 are primary contact recreation, public water supply, aquifer protection, and high aquatic life use. This link to an electronic map of the site or facility's general location is provided as a public courtesy and is not part of the application or notice. For the exact location, refer to the application.

The TCEQ Executive Director has completed the technical review of the application and prepared a draft permit. The draft permit, if ap-

proved, would establish the conditions under which the facility must operate. The Executive Director has made a preliminary decision that this permit, if issued, meets all statutory and regulatory requirements. The permit application, Executive Director's preliminary decision, and draft permit are available for viewing and copying at Liberty Hill Public Library, 355 Loop 332, Liberty Hill, Texas 78642.

**PUBLIC COMMENT / PUBLIC MEETING.** A public meeting will be held and will consist of two parts, an Informal Discussion Period and a Formal Comment Period. A public meeting is not a contested case hearing under the Administrative Procedure Act. During the Informal Discussion Period, the public will be encouraged to ask questions of the applicant and TCEQ staff concerning the permit application. The comments and questions submitted orally during the Informal Discussion Period will not be considered before a decision is reached on the permit application and no formal response will be made. Responses will be provided orally during the Informal Discussion Period. During the Formal Comment Period on the permit application, members of the public may state their formal comments orally into the official record. A written response to all timely, relevant and material, or significant comments will be prepared by the Executive Director. All formal comments will be considered before a decision is reached on the permit application. A copy of the written response will be sent to each person who submits a formal comment or who requested to be on the mailing list for this permit application and provides a mailing address. Only relevant and material issues raised during the Formal Comment Period can be considered if a contested case hearing is granted on this permit application.

**The Public Meeting is to be held:**

**Tuesday, December 3, 2024 at 7:00 p.m.**

**Rock Pointe Event Center**

**170 CR 214 Liberty Hill, Texas 78642**

Persons with disabilities who need special accommodations at the meeting should call the Office of the Chief Clerk at (512) 239-3300 or (800) RELAY-TX (TDD) at least five days prior to the meeting.

**OPPORTUNITY FOR A CONTESTED CASE HEARING.** After the deadline for submitting public comments, the Executive Director will consider all timely comments and prepare a response to all relevant and material, or significant public comments. **Unless the application is directly referred for a contested case hearing, the response to comments will be mailed to everyone who submitted public comments and to those persons who are on the mailing list for this application. If comments are received, the mailing will also provide instructions for requesting a contested case hearing or reconsideration of the Executive Director's decision.** A contested case hearing is a legal proceeding similar to a civil trial in a state district court.

**TO REQUEST A CONTESTED CASE HEARING, YOU MUST INCLUDE THE FOLLOWING ITEMS IN YOUR REQUEST: your name, address, phone number; applicant's name and proposed permit number; the location and distance of your property/activities relative to the proposed facility; a specific description of how you would be adversely affected by the facility in a way not common to the general public; a list of all disputed issues of fact that you submit during the comment period; and the statement "[I/we] request a contested case hearing." If the request for contested case hearing is filed on behalf of a group or association, the request must designate the group's representative for receiving future correspondence; identify by name and physical address an individual member of the group who would be adversely affected by the proposed facility or activity; provide**

**the information discussed above regarding the affected member's location and distance from the facility or activity; explain how and why the member would be affected; and explain how the interests the group seeks to protect are relevant to the group's purpose.**

Following the close of all applicable comment and request periods, the Executive Director will forward the application and any requests for reconsideration or for a contested case hearing to the TCEQ Commissioners for their consideration at a scheduled Commission meeting.

The Commission may only grant a request for a contested case hearing on issues the requestor submitted in their timely comments that were not subsequently withdrawn. **If a hearing is granted, the subject of a hearing will be limited to disputed issues of fact or mixed questions of fact and law relating to relevant and material water quality concerns submitted during the comment period.**

**EXECUTIVE DIRECTOR ACTION.** The Executive Director may issue final approval of the application unless a timely contested case hearing request or request for reconsideration is filed. If a timely hearing request or request for reconsideration is filed, the Executive Director will not issue final approval of the permit and will forward the application and request to the TCEQ Commissioners for their consideration at a scheduled Commission meeting.

**MAILING LIST.** If you submit public comments, a request for a contested case hearing or a reconsideration of the Executive Director's decision, you will be added to the mailing list for this specific application to receive future public notices mailed by the Office of the Chief Clerk. In addition, you may request to be placed on: (1) the permanent mailing list for a specific applicant name and permit number; and/or (2) the mailing list for a specific county. If you wish to be placed on the permanent and/or the county mailing list, clearly specify which list(s) and send your request to TCEQ Office of the Chief Clerk at the address below.

## Notice of a Public Meeting and a Proposed Renewal of General Permit TXG670000 Authorizing the Discharge of Wastewater

The Texas Commission on Environmental Quality (TCEQ or commission) is proposing to renew Texas Pollutant Discharge Elimination System General Permit No. TXG670000. This general permit authorizes the discharge of hydrostatic test water from new vessels; vessels which contained raw water, potable water, or elemental gases; or vessels which contained petroleum substances or waste related to petroleum substances. The draft general permit applies to the entire state of Texas. General permits are authorized by Texas Water Code, §26.040.

**DRAFT GENERAL PERMIT.** The executive director has prepared a draft general permit renewal with amendments of an existing general permit that authorizes the discharge of hydrostatic test water from new

vessels; vessels which contained raw water, potable water, or elemental gases; or vessels which contained petroleum substances or waste related to petroleum substances. No significant degradation of high-quality waters is expected and existing uses will be maintained and protected. The executive director proposes to require regulated entities to submit a Notice of Intent to obtain authorization under the general permit.

The executive director has reviewed this action for consistency with the goals and policies of the Texas Coastal Management Program (CMP) according to General Land Office regulations and has determined that the action is consistent with applicable CMP goals and policies.

On the date that this notice is published, a copy of the draft general permit and fact sheet will be available for a minimum of 30 days for viewing and copying at the TCEQ Office of the Chief Clerk located at the TCEQ Austin office, at 12100 Park 35 Circle, Building F. These documents will also be available at the TCEQ's 16 regional offices and on the TCEQ website at <https://www.tceq.texas.gov/permitting/wastewater/general/index.html>.

**PUBLIC COMMENT AND PUBLIC MEETING.** You may submit public comments on this proposed general permit in writing or orally at the public meeting to be held by the TCEQ. The purpose of a public meeting is to provide the opportunity to submit written or oral comment or to ask questions about the proposed general permit. A public meeting is not a contested case hearing.

**The hybrid in-person and virtual public meeting will be held at 9:30 a.m., December 9, 2024, in TCEQ's complex at 12100 Park 35 Circle, Building B, Room 201A, Austin, Texas 78753.**

The commission will consider all public comment in making its decision and will either adopt the executive director's response or prepare its own response. The commission will issue its written response on the general permit at the same time the commission issues or denies the general permit. A copy of any issued general permit and response to comments will be made available to the public for inspection at the agency's Austin office. ### Update to the Water Quality Management Plan (WQMP)

The Texas Commission on Environmental Quality (TCEQ or commission) requests comments from the public on the draft October 2024 Update to the WQMP for the State of Texas.

Download the draft October 2024 WQMP Update at [https://www.tceq.texas.gov/permitting/wqmp/WQmanagement\\_updates.html](https://www.tceq.texas.gov/permitting/wqmp/WQmanagement_updates.html) or view a printed copy at the TCEQ Library, Building A, 12100 Park 35 Circle, Austin, Texas.

The WQMP is developed and promulgated in accordance with the requirements of the federal Clean Water Act, Section 208. The draft update includes projected effluent limits of specific domestic dischargers, which may be useful for planning in future permit actions. The draft update may also contain service area populations for listed wastewater treatment facilities, designated management agency information, and total maximum daily load (TMDL) revisions.

Once the commission certifies a WQMP update, it is submitted to the United States Environmental Protection Agency (EPA) for approval. For some Texas Pollutant Discharge Elimination System (TPDES) permits, the EPA's approval of a corresponding WQMP update is a necessary precondition to TPDES permit issuance by the commission.

#### Deadline

All comments must be received at the TCEQ no later than **5:00 p.m. on December 10, 2024**.

**Notice and Opportunity to Comment on Requests for Consistency Agreement/Concurrence Under the Texas Coastal Management Program**

On January 10, 1997, the State of Texas received federal approval of the Coastal Management Program (CMP) (62 *Federal Register* pp. 1439 - 1440). Under federal law, federal agency activities and actions affecting the Texas coastal zone must be consistent with the CMP goals and policies identified in 31 TAC Chapter 26. Requests for federal consistency review were deemed administratively complete for the following project(s) during the period of, October 21, 2024 to October 25, 2024. As required by federal law, the public is given an opportunity to comment on the consistency of proposed activities in the coastal zone undertaken or authorized by federal agencies. Pursuant to 31 TAC §§30.20(f), 30.30(h), and 30.40(e), the public comment period extends 30 days from the date published on the Texas General Land Office web site. The notice was published on the web site on Friday, November 1, 2024. The public comment period for this project will close at 5:00 p.m. on Sunday, December 1, 2024.

Federal License and Permit Activities:

**Applicant:** Harris County Flood Control District (HCFCDD)

**Location:** The proposed Regional General Permit would be valid in all waters of the United States, including wetlands and tidal areas, maintained as stormwater facilities under the jurisdiction of the Harris County Flood Control District, in Harris County, Texas.

**Project Description:** HCFCDD proposes reissuance of their RGP for maintenance and emergency repair of stormwater management facili-

ties, in Harris County, Texas. This public notice is being issued based on information furnished by the applicant.

**Type of Application:** U.S. Army Corps of Engineers permit application # SWG-2009-00123 Re-Issuance. This application will be reviewed pursuant to Section 10 of the Rivers and Harbors Act of 1899 and Section 404 of the Clean Water Act. Note: The consistency review for this project may be conducted by the Texas Commission on Environmental Quality as part of its certification under §401 of the Clean Water Act.

**CMP Project No:** 25-1035-F1

**Applicant:** International Bank Shares Corporation (IBC Bank)

**Location:** The project sites are located on North Padre Island at (1) Commodores Drive between Compass Street and E Cabana Street between the ends of two residential canals, (2) Crown Royal Drive at a location approximately 180 feet southeast of its intersection with Dasmariñas Drive, and (3) along Aquarius Street approximately 1,175 feet west of its intersection with Commodores Drive (south terminus), and 380 feet southwest of the intersection of Primavera Drive and A La Entrada Calle (north terminus) in Corpus Christi, Nueces County, Texas.

**Latitude and Longitude:**

Commodores Drive Bridge: Latitude: 27.61818, -97.22426

Crown Royal Drive Culvert: Latitude: 27.61123, -97.22915

Aquarius Aqueduct N End: Latitude: 27.62282, -97.23319

Aquarius Aqueduct S End: Latitude: 27.61728, -97.22931

**Project Description:** The applicant proposes to construct a bridge and culverts in three locations, and an open water ditch in order to connect waters within several residential canal systems in order to increase water circulation within the current residential developments and alleviate water quality issues within the residential canals.

1. Commodores Bridge: The applicant proposes to construct a bridge "in the dry" along Commodores Drive and then excavate a canal extension below the bridge to link two residential canals. A bypass road would be constructed around the bridge construction area in dry land, and utilities moved out from under the current roadway and re-routed. The area would be excavated, and sheet pile driven for the proposed roadway and abutment. The abutments would then be armored with concrete. The bridge (standard Texas Department of Transportation design) will be constructed, and the area under the bridge will be armored for future scour protection. After construction of the bridge and abutments to the adjacent existing canal systems, double silt curtains would be placed on either side and adequately anchored. The material under the bridge and between the two existing canal ends (consisting primarily of sand) would be excavated and the connection would be made between the north canal system and the applicant's canals. The canal section below the bridge would be 44.5 feet wide with a -6 foot depth. The total length of the proposed canal segment is approximately 350 feet. A total of approximately 5,819 cubic yards of material will be excavated from 63,462 square feet of uplands to connect the canal system. Once construction activity has ceased, the silt curtains would be removed.

2. Crown Royal Drive Culvert: Crown Royal Drive would be excavated one lane at a time to install 120 feet of 9-foot by 9-foot reinforced concrete box (RCB) culvert to connect two ditches extending from two sections of residential canal to allow for water circulation. An 80-foot-wide concrete headwall would be installed on either side of Crown Royal Drive, and the culvert tied into each headwall. The ditch would then be excavated in both directions from Crown Royal Drive, following the path of the existing ditch to a point where the ditch ties

into the residential canals. Each section of ditch would have parallel bulkheading installed "in the dry" approximately 64 feet apart at +5 ft elevation as measured from Mean Lower Low Water (MLLW), then the ditch would be excavated out at a 3:1 slope to a depth of -6 feet MLLW, effectively creating a 64-foot-wide residential canal extending either direction from Crown Royal Drive. Excavated material (primarily sand) would be placed in upland areas. After construction of the culvert and bulkheads, double silt curtains would be placed on either side and adequately anchored to minimize turbidity into the canal system caused by construction activities. Once construction activity has ceased, the silt curtains would be removed.

3. Aquarius Aqueduct: Aquarius Drive would be excavated one lane at a time to install approximately 120 feet of 10- by 7-foot RCB box culvert, and approximately 2,200 linear feet of 60-foot-wide open ditch would be mechanically excavated through uplands, palustrine wetlands currently authorized for fill or excavation (Permit SWG-2018-00965), and an unspecified amount of fringe estuarine wetlands adjacent to the Laguna Madre to a point along its shoreline 380 feet southwest of the intersection of Primavera Drive and A La Entrada Calle, to a bottom depth of -6 feet MLLW to allow for water circulation within the residential canals. The excavated material would be placed in a disposal area as shown on sheets 8 and 9 of the plan drawings. Double silt curtains would be placed at either side of the RCB box culvert ends and the open ditch, and adequately anchored to minimize turbidity caused by construction activities. Once construction activity has ceased, the silt curtains would be removed.

No mitigation is proposed for this project.

**Type of Application:** U.S. Army Corps of Engineers permit application # SWG- 2024-00119. This application will be reviewed pursuant to Section 10 of the Rivers and Harbors Act of 1899 and Section 404 of the Clean Water Act. Note: The consistency review for this project may be conducted by the Texas Commission on Environmental Quality as part of its certification under §401 of the Clean Water Act.

**CMP Project No:** 25-1042-F1

## Texas Racing Commission

### Notice of Deadline to Request Recognition as Horsemen's Representative

Pursuant to the Texas Racing Act, Tex. Occ. Code §2023.051 and 16 Texas Administrative Code §309.299, the Executive Director for the Texas Racing Commission provides notice that Friday, January 31, 2025, is the deadline to request Commission recognition as the horsemen's representative organization. The Texas Racing Act authorizes the Commission to recognize an organization to represent members of a segment of the racing industry, including owners, breeders, trainers,

and other persons involved in the racing industry. In the Texas Rules of Racing §309.299. Horsemen's Representative, it states:

Findings. The Commission finds a need for horse owners and trainers to negotiate and covenant with associations as to the conditions of live race meetings, the distribution of purses not governed by Statute, simulcast transmission and reception, and other matters relating to the welfare of the owners and trainers participating in live racing at an association. To ensure the uninterrupted, orderly conduct of racing in this state, the Commission shall recognize one organization to represent horse owners and trainers on matters relating to the conduct of live racing and simulcasting at Texas racetracks.

#### Recognition Process.

To request Commission recognition as a horsemen's representative organization, the organization must file a written request for recognition on a form prescribed by the executive secretary. The executive secretary shall establish a deadline for filing a request under this paragraph and publish that deadline in the *Texas Register* at least 20 days before the deadline.

To be eligible for recognition as a horsemen's representative organization, each officer and director of the organization during the term of the recognition must be licensed by the Commission as an owner or trainer.

If only one organization requests recognition, the executive secretary shall issue a letter of recognition to the organization, subject to the approval of the Commission. If more than one organization requests recognition, the Commission shall recognize the organization that is best qualified to represent the horse owners and trainers for the various breeds participating in racing at all the racetracks in this state. The executive secretary may require each organization to requesting recognition to supply additional information regarding its structure, membership, and programs. The Commission shall consider the following when determining which organization to recognize under this section:

the experience and qualifications of the directors, executive officers, and other management personnel of the organization;

the organization's benevolence programs for its membership and others participating in racing in this state; and

the degree to which the organization's membership represents a fair and equitable cross-section of the horse owners and trainers participating at each of the racetracks in this state.

Recognition given under this section is valid for two years.

#### Authority and Responsibilities.

An organization recognized under this section shall negotiate with each association regarding the association's live racing program, including but not limited to the allocation of purse money to various live races, exporting of simulcast signals, and the importing of simulcast signals during live race meetings.

An organization recognized under this section may inspect and audit an association's horsemen's purse accounts.

An organization recognized under this section shall provide to the Commission on request a copy of the organization's most recent financial statements, minutes of board meetings, literature provided to its members, and any other records or information relating to the functions of the organization at Texas racetracks.

An organization recognized under this section may not counsel or encourage its member to strike, embargo, boycott, or employ similar tactics in dealing with an association.

Not later than June 15 of each year, an organization recognized under this section shall submit to the Commission audited financial state-

ments regarding its operations. The executive secretary may prescribe the form for the financial statement.

The Commission may require or conduct an audit of the records of an organization recognized under this section to ensure the organization is complying with applicable law.

To obtain a copy of the form, interested persons should go to:

<https://www.txrc.texas.gov/home/racetracks>. Once form is completed, please send to Amy F. Cook, Executive Director, Texas Racing Commission, 1801 N. ## Texas Department of Transportation

### Notice of Proposed Waiver

The Texas Department of Transportation (TxDOT) is currently undertaking the Interstate 35 improvement project through the City of Austin. This project requires a pump station to ensure proper drainage of the depressed sections of the improved roadway. Details of this pump station can be found on TxDOT's project page at <https://www.txdot.gov/mymobility35/projects/capex-central/drainage-tunnel-and-pump-station.html>. The pump station project, identified as CSJ 14-0914-04-362, is a stand-alone project that is funded using only state funds. A market analysis was conducted on behalf of TxDOT to determine the availability of components for a pump station that can adequately address the drainage needs of the project. The market analysis concluded that the iron and steel pump components were not readily available in the United States.

Texas Transportation Code, §223.045, requires a contract awarded for the improvement of the state highway system without federal aid to contain the same preference provisions for iron and steel products that are required under federal law for an improvement made with federal aid. Under federal law, the Federal Highway Administration may issue a waiver of preference provisions for iron and steel products on a project using federal aid if it is shown that suitable domestic products are not readily available. Similarly, when only state funding is used, TxDOT may issue a waiver on such a showing. Based on the conclusion of the market analysis, TxDOT intends to issue a waiver of the domestic iron and steel requirements for the pump station project because iron and steel pump components of a satisfactory quality are not produced in the United States in sufficient and reasonably available quantities for the project.

Written comments on the proposed waiver of the domestic iron and steel requirements for the pump station contract may be submitted to General Counsel Division, Texas Department of Transportation, 125 East 11th Street, Austin, Texas 78701-2483 or to [TxDOTGeneralCounsel@txdot.gov](mailto:TxDOTGeneralCounsel@txdot.gov) with the subject line "Pump station preference waiver." The deadline for receipt of comments is 5:00 p.m. on Monday, November 25th, 2024. In accordance with Transportation Code, §201.811(a)(5), a person who submits comments must disclose, in writing with the comments, whether the person does business with the department, may benefit monetarily from the proposed amendments, or is an employee of the department.
