The domestic wastewater treatment facility will be located approximately 0.95 miles northeast of the intersection of County Road 107 and County Road 110, in Williamson County, Texas 78626. The treated effluent will be discharged to an unnamed creek, thence to Huddleston Branch, thence to Mankins Branch, thence to San Gabriel/North Fork San Gabriel River in Segment No. 1248 of the Brazos River Basin. The unclassified receiving water uses are limited aquatic life use for the unnamed tributary of Huddleston Branch and the Huddleston Branch upstream of the confluence with an unnamed tributary located approximately 0.4 miles upstream of County Road 106 and high aquatic life use for the Huddleston Branch downstream of the confluence with an unnamed tributary located approximately 0.4 miles upstream of County Rd 106. The designated uses for Segment No. 1248 are primary contact recreation, public water supply, aquifer protection, and high aquatic life use. In accordance with 30 Texas Administrative Code Section 307.5 and the TCEQ's *Procedures to Implement the Texas Surface Water Quality Standards* (June 2010), an antidegradation review of the receiving waters was performed. A Tier 1 antidegradation review has preliminarily determined that existing water quality uses will not be impaired by this permit action. Numerical and narrative criteria to protect existing uses will be maintained. A Tier 2 review has preliminarily determined that no significant degradation of water quality is expected in Huddleston Branch (perennial), which has been identified as having high aquatic life use. Existing uses will be maintained and protected. The preliminary determination can be reexamined and may be modified if new information is received. This link to an electronic map of the site or facility's general location is provided as a public courtesy and is not part of the application or notice. The permit application, Executive Director's preliminary decision, and draft permit are available for viewing and copying at Georgetown Public Library, Front Desk, 402 West 8th Street, Georgetown, Texas.

The comments and questions submitted orally during the Informal Discussion Period will not be considered before a decision is reached on the permit application and no formal response will be made. Responses will be provided orally during the Informal Discussion Period. During the Formal Comment Period on the permit application, members of the public may state their formal comments orally into the official record. A written response to all timely, relevant and material, or significant comments will be prepared by the Executive Director. All formal comments will be considered before a decision is reached on the permit application. A copy of the written response will be sent to each person who submits a formal comment or who requested to be on the mailing list for this permit application and provides a mailing address. Only relevant and material issues raised during the Formal Comment Period can be considered if a contested case hearing is granted on this permit application.

The Public Meeting is to be held:

If the request for contested case hearing is filed on behalf of a group or association, the request must designate the group's representative for receiving future correspondence; identify by name and physical address an individual member of the group who would be adversely affected by the proposed facility or activity; provide the information discussed above regarding the affected member's location and distance from the facility or activity; explain how and why the member would be affected; and explain how the interests the group seeks to protect are relevant to the group's purpose.

Following the close of all applicable comment and request periods, the Executive Director will forward the application and any requests for reconsideration or for a contested case hearing to the TCEQ Commissioners for their consideration at a scheduled Commission meeting.

The Commission may only grant a request for a contested case hearing on issues the requestor submitted in their timely comments that were not subsequently withdrawn. **If a hearing is granted, the subject of a hearing will be limited to disputed issues of fact or mixed questions of fact and law relating to relevant and material water quality concerns submitted during the comment period.**

Texas Parks and Wildlife Department

Notice of Availability and Request for Public Comment

Notice of Availability and Request for Public Comment Within 30 Days.

Proposed Amended Draft Natural Resource Damage Assessment Plan; Mountain Creek Lake: Naval Air Station Dallas and Naval Weapons Industrial Reserve Plant, Dallas, Dallas County, Texas

AGENCIES: Texas Parks and Wildlife Department (TPWD), Texas Commission on Environmental Quality (TCEQ), and Texas General Land Office (GLO) (collectively, the Trustees).

ACTION: Notice of availability of a proposed Amended Draft Natural Resource Damage Assessment Plan, Mountain Creek Lake: Naval Air Station Dallas and Naval Weapons Industrial Reserve Plant (Draft Assessment Plan) and of a 30-day period for public comment on the Amended Draft Assessment Plan beginning on the date of publication of this notice.

SUMMARY: This notice serves to inform the public that the Trustees have developed an Amended Draft Assessment Plan to describe how the Trustees propose to determine and quantify natural resource injuries and damages to Mountain Creek Lake and the associated nearshore zone impacted by the release of oil or hazardous substances at or from Naval Air Station Dallas and the Naval Weapons Industrial Reserve Plant. Due to a regulatory change, the Trustees are amending the assessment plan to add two per- and polyfluoroalkyl substances, perfluorooctanoic acid (PFOA) and perfluorooctanesulfonic acid (PFOS), to the list of chemicals of concern and providing another opportunity for public comment due to the change.

This opportunity for public review and comment on the Amended Draft Assessment Plan is made pursuant to 43 CFR §11.32(c).

ADDRESSES: Interested members of the public may request a copy of the Draft Assessment Plan by contacting Kimberly Biba at the TPWD, Coastal Fisheries Division, 1502 FM 517 Road East, Dickinson, Texas 77539; by phone at (281) 534-0133; or by email at Kimberly.biba@tpwd.texas.gov.

DATES: Public comments on the Amended Draft Assessment Plan must be submitted in writing to Kimberly Biba at the same mailing or e-mail address within 30 days of the publication date of this notice. The Trustees will consider all written comments received during the comment period.

SUPPLEMENTARY INFORMATION: The natural resource damage assessment and restoration (NRDAR) is being conducted jointly by the Trustees pursuant to their respective authorities and responsibilities under the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) (42 U.S.C. §§9601-9675) and other applicable federal and state laws. The Trustees were designated by the governor of Texas as trustees for natural resources pursuant to Section 107(f)(2)(B) of CERCLA, 42 U.S.C. §9607(f)(2)(B). Relevant regulations include Subpart G of the National Oil and Hazardous Substances Pollution Contingency Plan (40 CFR §§300.600-300.615) and U.S. Department of the Interior's (DOI's) NRDAR Regulations at 43 CFR Part 11 (DOI NRDAR Regulations), which provide guidance for the NRDAR process under CERCLA.

The U.S. Department of the Navy formerly owned and operated the Naval Weapons Industrial Reserve Plant and Naval Air Station Dallas, located along the northwest shore of Mountain Creek Lake in the City of Dallas, Dallas County, Texas.

Pursuant to 43 CFR Part 11, the Trustees completed a Preassessment Screen and Determination (PAS) in July 2000, which determined that sufficient information was available to proceed with a NRDAR. Specifically, the Trustees have determined that a discharge of oil or a release of a hazardous substance occurred from Naval Air Station Dallas and the Naval Weapons Industrial Reserve Plant; natural resources for which the Trustees may assert trusteeship under CERCLA have been or are likely to have been adversely affected by the release; the quantity and concentration of the discharged oil or released hazardous substance is sufficient to potentially cause injury to natural resources; data sufficient to pursue an assessment are readily available or likely to be obtained at a reasonable cost; and response actions carried out or planned do not or will not sufficiently remedy injury to natural resources without further action.

Notice of Issued Waiver

On November 8, 2024, the Texas Department of Transportation (TxDOT) published a Notice of Proposed Waiver in the *Texas Register*. See Tex. Reg. Vo. 49, No. 45 Page 9075. That notice set forth TxDOT's intention to issue a waiver of the domestic iron and steel requirements for the pump station project, identified as CSJ 14-0914-04-362, related to the Interstate 35 improvement project due to the lack of domestically produced iron and steel pump components sufficient for the project. The notice provided a 15-day period for public comments on the proposed waiver. The comment period ended at 5 p.m. on Monday November 25th, 2024.

TxDOT did not receive any comments in response to the Notice of Proposed Waiver.

After substantial efforts to find domestically sourced pump components, including a market analysis conducted on behalf of TxDOT, Marc Williams, the Executive Director of TxDOT, found that neither those efforts nor public response to the notice of the proposed waiver identified domestically manufactured items capable of satisfying the project requirement and further found that the issuance of the waiver

is essential to achieving the goal of providing a pump station that can effectively drain the Interstate 35 project for the safety of the traveling public and improve the water quality of the area by removing trash and sediment from discharged water.

In conformance with Texas Transportation Code, §223.045 and the application of a waiver process that is analogous to the process used for a waiver of preference provisions for iron and steel and iron and steel products that are required under federal law for an improvement made with federal aid, Marc Williams issued a waiver of the iron and steel domestic sourcing requirements for the pump station project, identified as CSJ 14-0914-04-362, effective December 13, 2024. A copy of the waiver is available upon request by emailing TxDOTGeneralCounsel@txdot.gov with the subject line "Pump station waiver."
